

Mystery # 15 Any Size You Want

Step Three:

Now comes what some people call the tricky part, but it isn't really that hard. Sew your first unit to the square, but only a little over half way! This is very important. You'll come back and finish it later. (If you are making the 3 inch or 6 inch blocks, I suggest you sew about 3/4 of the way, which will make it easier when you join them later.)

I pressed to the rectangle because I had light center squares. Either way is ok.
